## Authorisation of Incorporation of Geodata into OpenStreetMap

Dear OpenStreetMap Community,

As you might be aware, the Nigerian Energy Support Programme (NESP), a technical assistance programme, co-funded by the European Union and the German Federal Ministry of Economic Cooperation and Development (BMZ) and implemented by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) in collaboration with the Federal Ministry of Power. It aims to foster investments in the domestic renewable energy and energy efficiency market.

With respect to the above subject, NESP agrees to the provision of the nationwide geodata containing facilities and businesses acquired from field survey for electrification planning under the Nigeria Sustainable Energy for All Initiative (Nigeria SE4ALL), to the OpenStreetMap database.

After running through the NESP internal data sharing policy, NESP agreed to share those non-sensitive data on OpenStreetMap under ODbL 1.0 license. This under the condition that NESP will be attributed on the OpenStreetMap wiki page as contributors to OpenStreetMap.

Therefore, the data can be integrated into the OpenStreetMap respecting the above-mentioned condition.

Should you have any further questions or require additional information, please don't hesitate to contact Temitope Omowumi (temitope.omowumi@giz.de).

Kind regards,

Duke Benjamin
