Why OSM (was started) ?

Many maps are available on the internet, **but**

- Free of charge but not free
- Web viewing: allowed
- Using API: registration required
- Printing and distribution: restricted or forbidden
- Only rendered tiles
- Geographic data not available

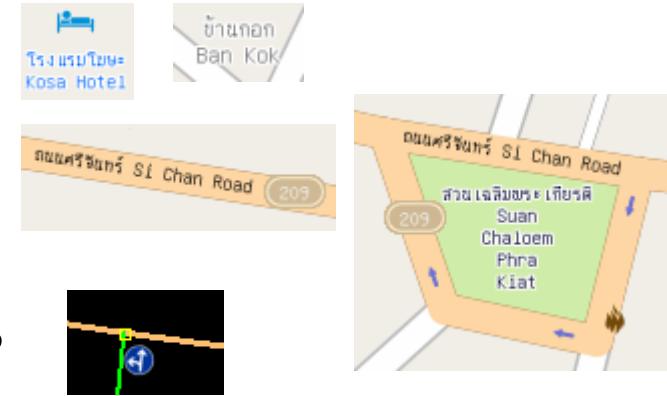

What is OSM?

- Geographic data of the world: free as Wikipedia
 - Maps on the internet ready to use: free
 - Map renderer: free
 - Data editors: free
 - Join and contribute: free for everybody
-
- Established August 9, 2004
 - 303,000 users at August 2010
 - Supporting body: OpenStreetMap Foundation (OSMF)
 - Funding by donations only

Which data are in OSM?

Data primitives:

- Nodes: single geospatial points
- Ways: ordered sequence of nodes
 - Closed ways (areas)
- Relations: group of data primitives

Map features (tags):

- Recommended set of tags:
 - “tourism=hotel”, “name=โรงแรมโคษา”, “name:en=Kosa Hotel”
- Free to use any verifiable tag:
 - “addr:hamlet=7”, “addr:subdistrict=Ban Pet”, “name=บ้านโคก”

What can you do with OSM?

- Use OSM
 - Explore OSM maps on the internet
 - Customize OSM maps on the internet
 - Demand OSM maps on the internet
 - Use OSM on Linux, Windows, Mobile
 - Use OSM data with other applications
 - ... more
- Contribute to OSM
 - Data
 - Tools
 - Descriptions
 - Communication
 - ... more

Use OSM on Linux, Windows, Mobile

Name	Creator	Platform	Display map	Navigating	Track making	Monitoring	Cost	Open source?	Software license	Language	Comment
Gosmore	User:Nic	Linux, Windows, Windows Mobile	Yes	Yes	Yes	No	Free	Yes	PD	English, German etc.	*Very fast routing
NaviPOWM	Julian Bugariu	Linux, Windows, WinMobile, WinCE	Yes	planned	Yes	Yes	Free	Yes	GPL	English	uses vector maps
Navit	navit team	Linux, Windows, Android, OpenMoko Freerunner, WinCe, Nokia n800, Internet tablets, iPhone, Zaurus...	Yes	Yes	Yes	Partial	Free	Yes	GPL	43 languages including: Brazilian Portuguese, Chinese (Hong Kong), Czech, Danish, Dutch, English, Finnish, French, German, Hebrew, Italian, Japanese, Norwegian Bokmal, Polish, Portuguese, Romanian, Russian, Slovak, Slovenian, Spanish, Swedish, Telugu, Thai, Turkish	
Vespucci	Matthias Brandt, Marcus Wolschon	Android	Yes*	No	No	Show Tracks only	Free	Yes	Apache License v2	English, German, French, Hungarian, Italian, Russian	* Vespucci is an editor with tile-background and autocompletion.

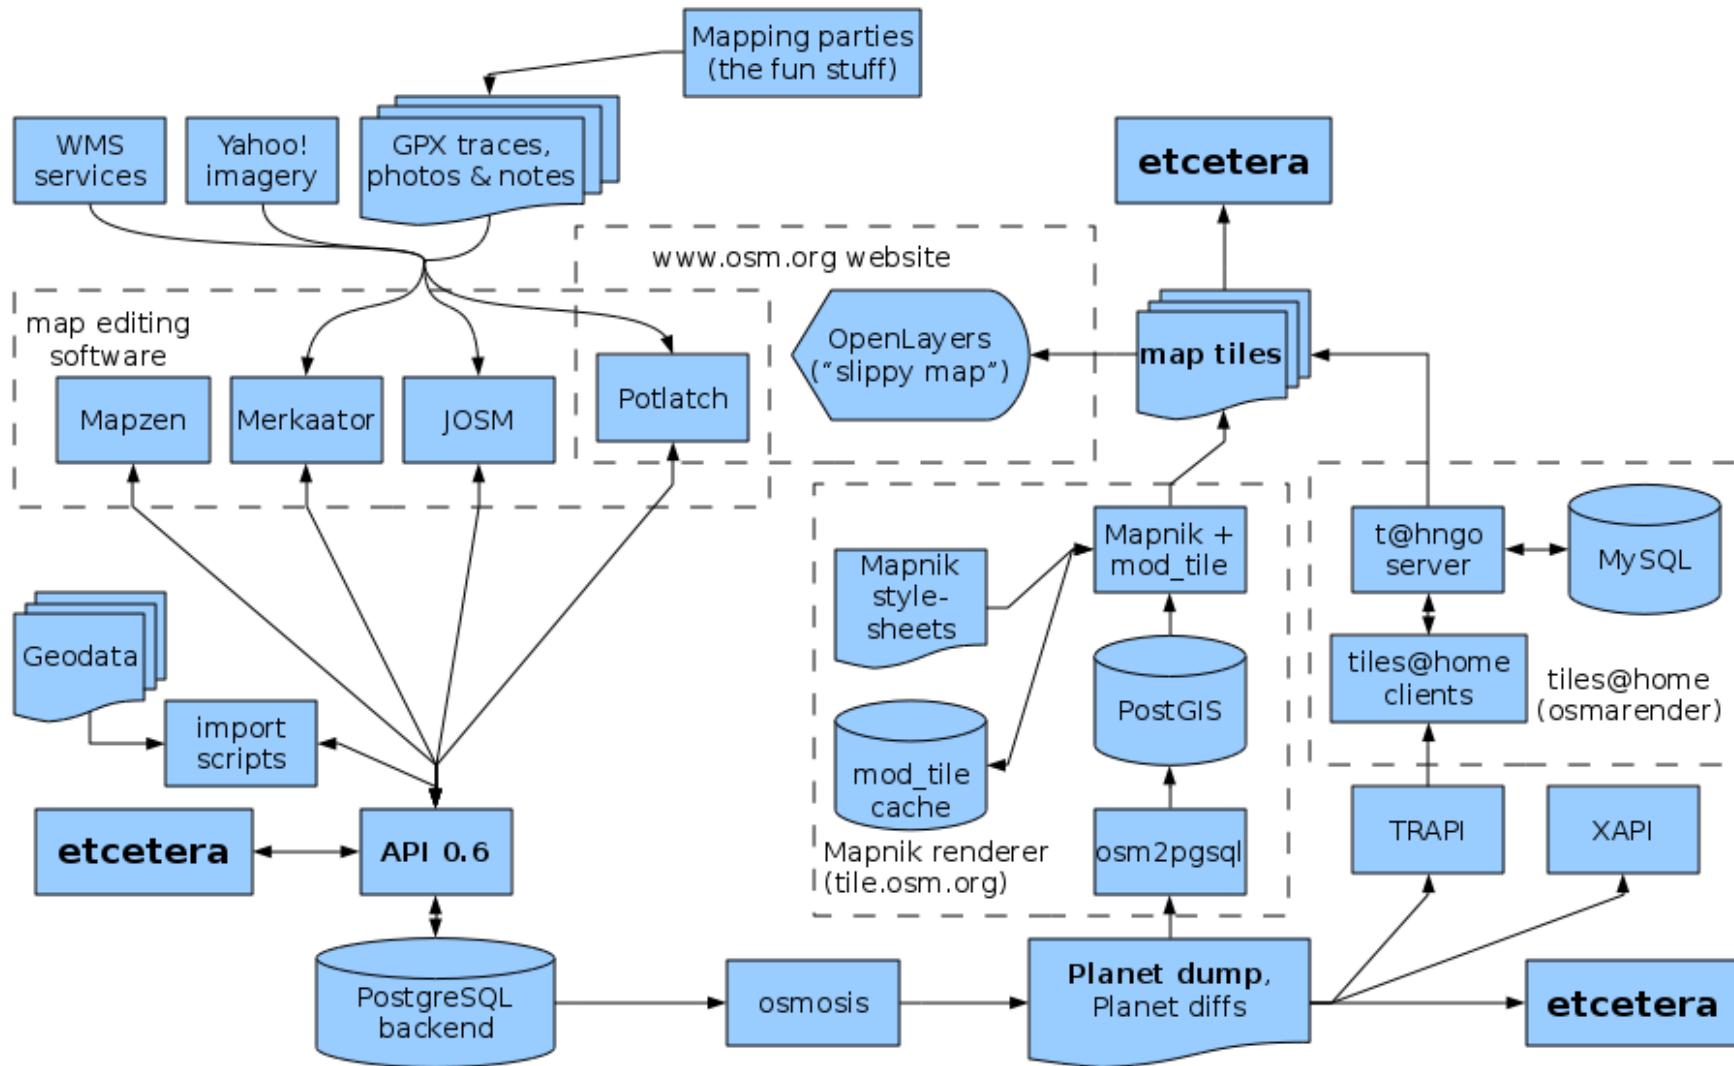

Use OSM data with other applications

- Embed static maps on a webpage
- Embed dynamic maps on a webpage
- Render maps
- Use OSM data with Google Earth
- Use OSM data with other GIS software
- Export data

Contribute to OSM

- Develop
- Describe
- Communicate
- Contribute data

Develop: Components of OSM

Describe: Wiki

- Base language is English
- Some pages in other languages
- WikiProject Thailand
 - Multilingual names
 - Highway classification
 - Administrative levels
 - Fuel stations
 - Waterways

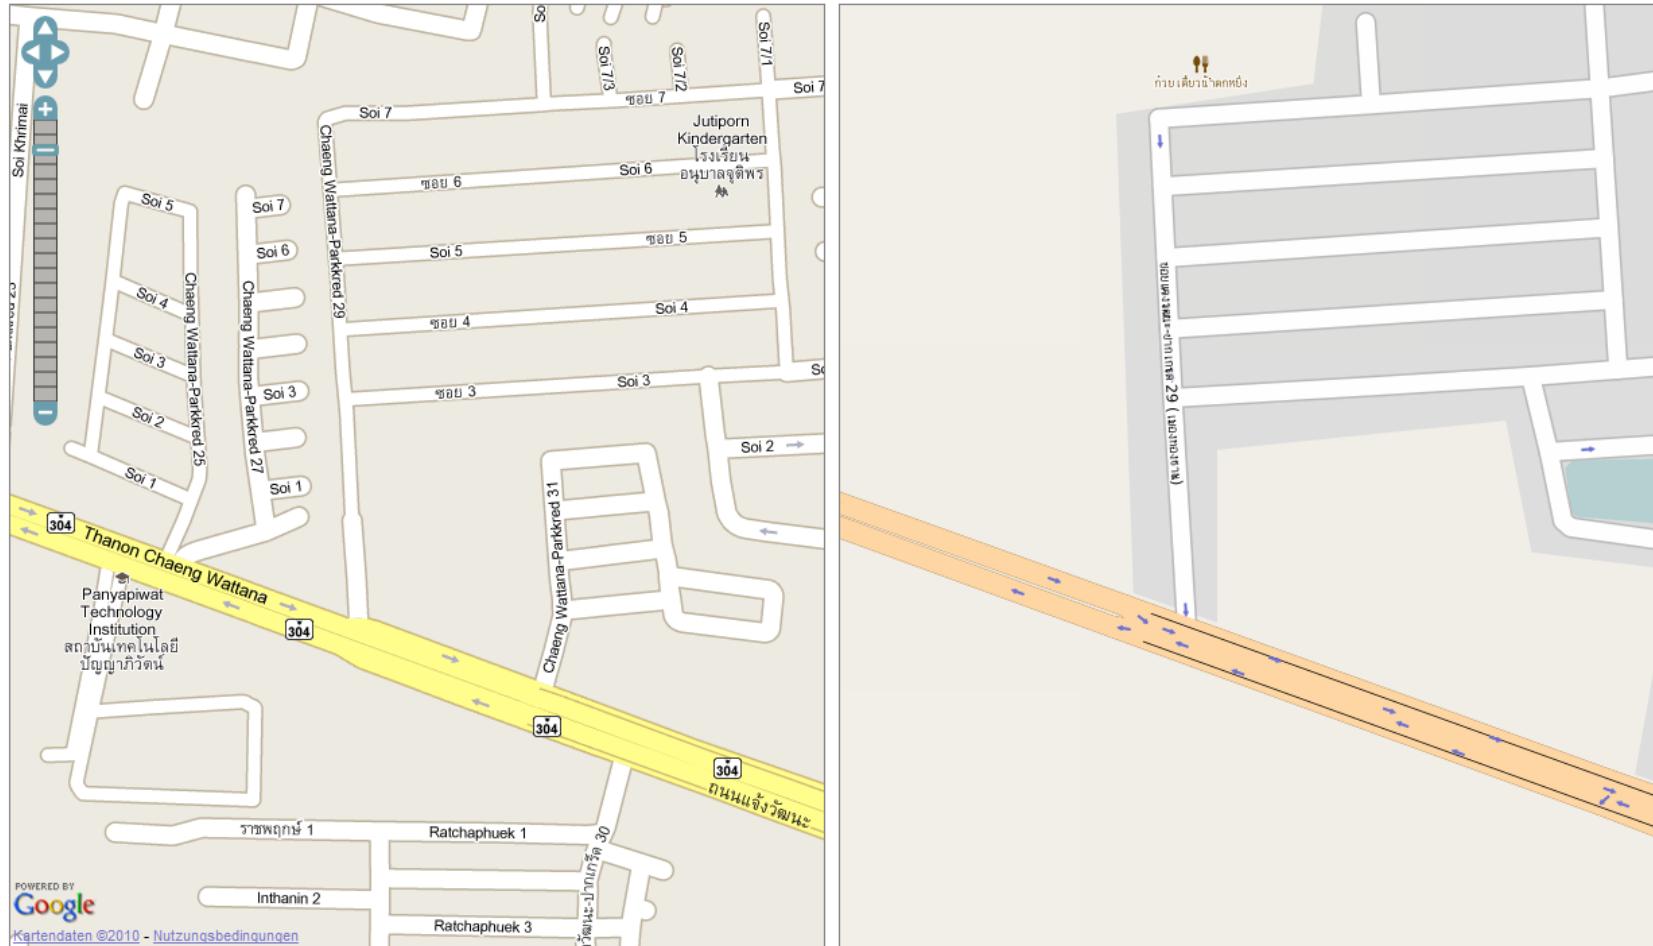

Communicate with the community

- Wiki: guideline not mandatory
- Help Forum: questions and answers
- Forum: global and per country
- Mailing lists: global and per country
- Bug reporting for data and tools
- IRC
- E-Mail a mapper
- Diary and Blog
- Twitter
- Facebook: Thai OpenStreetMap

Contribute data

- The golden rules:
 - Don't copy from other maps!
 - Have fun!
- Guidelines
 - Don't hesitate to ask
 - Don't be afraid to make errors
 - Respect the contributions of others
 - Vague data is usually better than no data

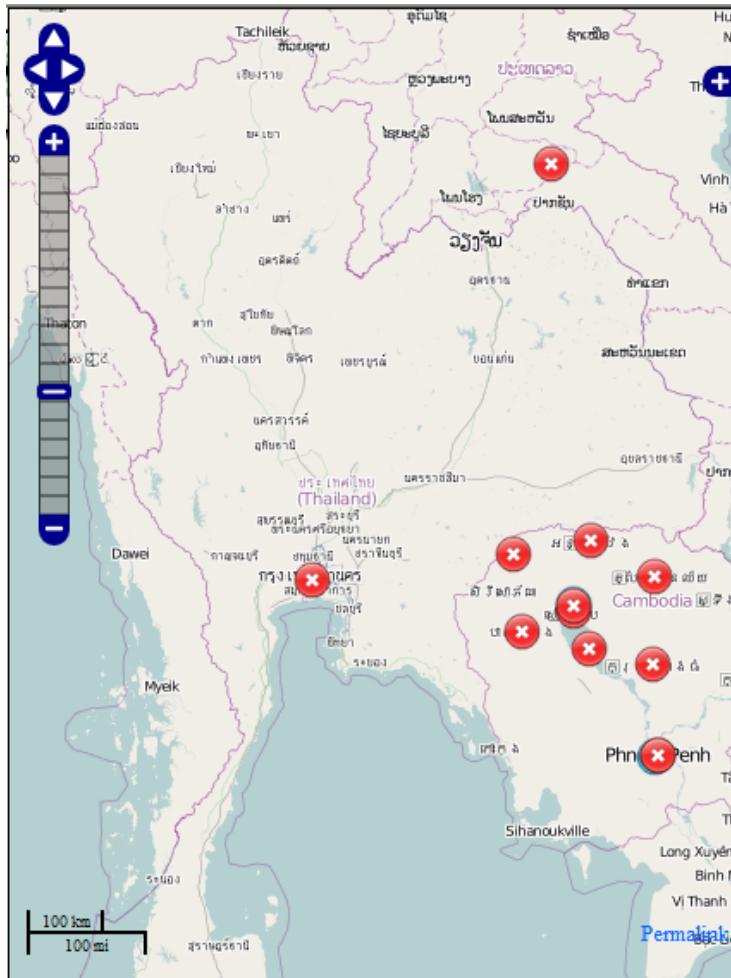

Geofabrik map compare: a lot to map

Collect data

- Knowledge
- Satellite and aerial images: Yahoo
- Authorities: permission to use for OSM
- Walk, bike, motorcycle, car, boat
- Paper and pen
- Photo, video, voice recording
- GPS device: tracks and waypoints

Report an error

Create an Error Report

Please provide a short description of what's wrong here.
You can also enter your nickname to show that you
found the error.
