

# Narita airport to Aizuwakamatsu station

We recommend that you take the high speed train between Narita airport and Aizuwakamatsu station. If you have a JR Pass then this journey can be booked for free.

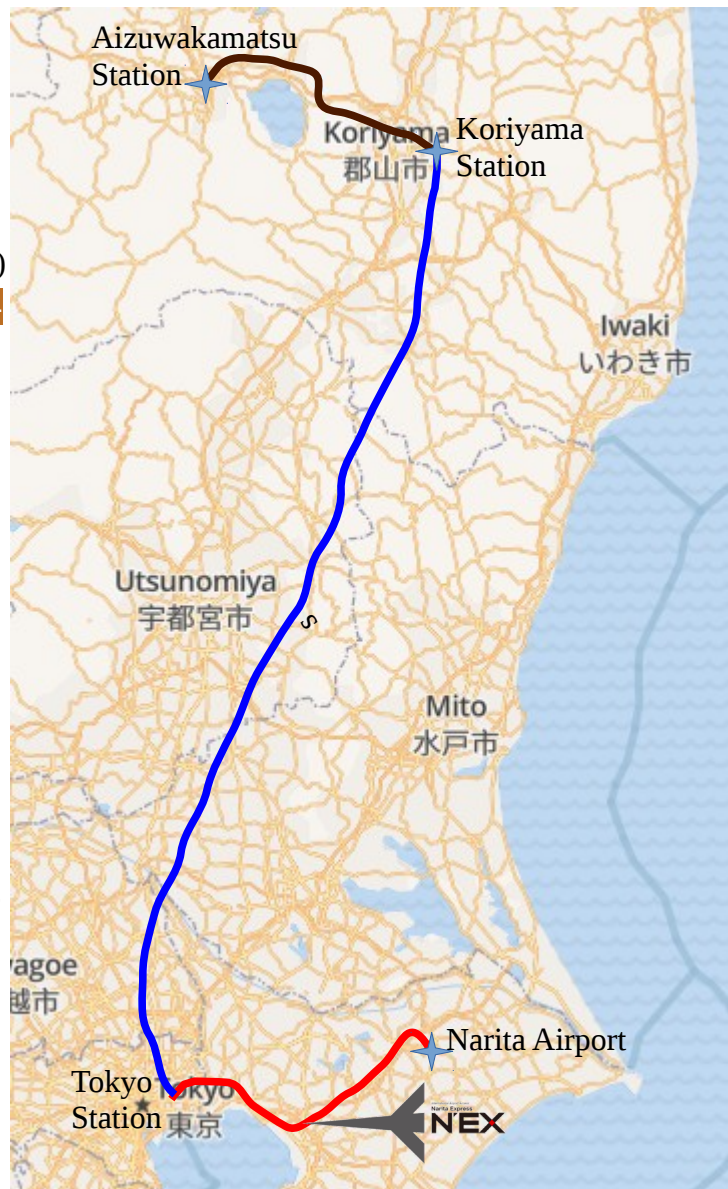

## Option 1 (Easy)

The easiest option is to take the “**JR Narita Express**” (NEX) from the airport to Tokyo Station. From there you switch train to the high speed “**Shinkansen**” train (Bullet train) to Koriyama Station. Finally take the “**Ban-Etsusai Line**” train to Aizuwakamatsu.

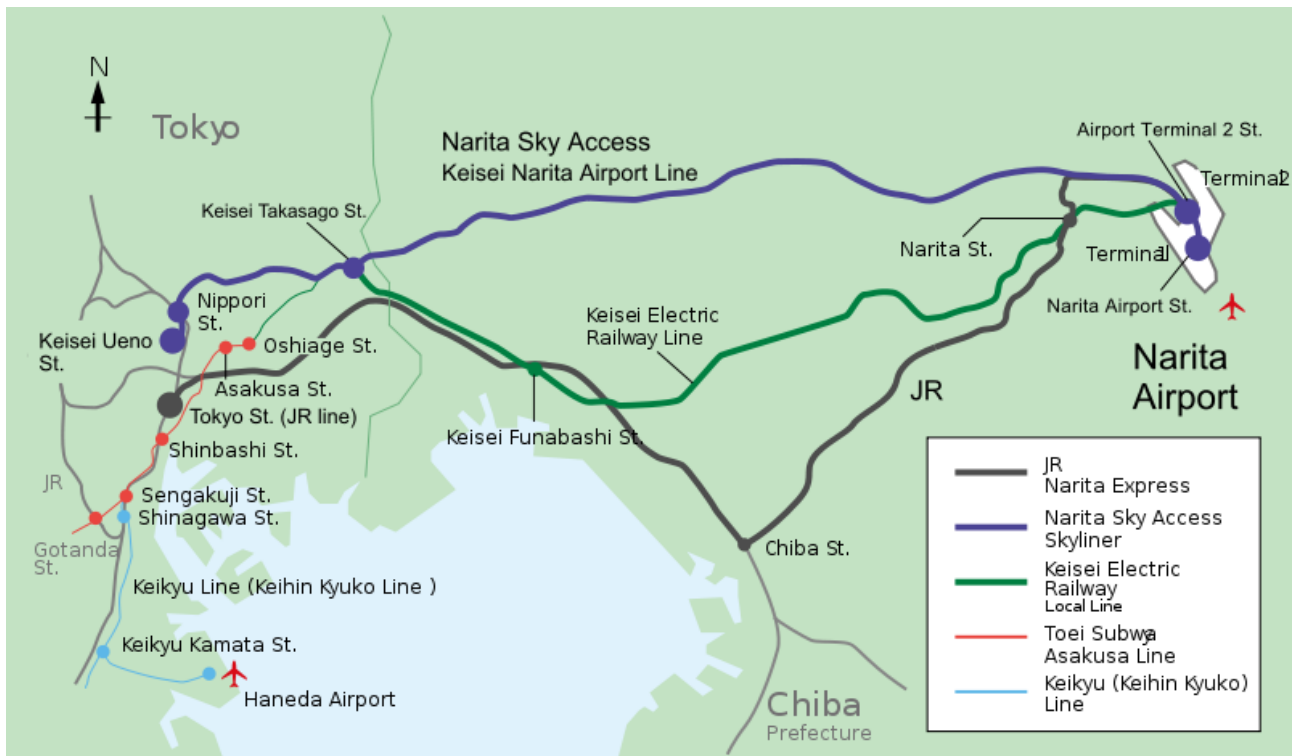

Note: There is also a bus between Koriyama station and Aizuwakamatsu. This is not included in the JR Pass.

## Option 2

The alternate option is that you take the “Narita Skyliner” train from Narita Airport to “Keisei Ueno Station” just north of Tokyo Station. You then exit the station, turn left and walk 5 mins to “Ueno Station” (entrance under the train bridge). From there board the “**Shinkansen**” train (Bullet train) to Koriyama Station and continue as above.

## Other routes (Tokyo ↔ Narita Airport)

## Timetables:

Use <http://www.hyperdia.com/> where you can check times and prices (but not book tickets).
