Hi!

Please sorry for delaying with answer.
You are free for using KM+ data via API.

Also, if you find any mistake etc on KM+ please do not hesitate to contact us.

Sincerely,
The KM+ team

Subject: Using KM+ data to improve OpenStreetMap

Hello,

I saw the KM+ project (https://kmplus.ukravtodor.gov.ua/page/pro-proekt), and was wondering if it would be ok to use it for updating road names on OpenStreetMap, the free and open map of the world? I didn't see a license info or terms of use so I wanted to reach out and ask.

OpenStreetMap is used by many businesses, nonprofits, humanitarian groups and local organizations, and I think this data would help make sure everything is correct there. Thank you.

Andrew
