What is it?

OpenStreetMap (OSM)

- Not software
- It's a collaborative project to create a free & editable map of the world.
- The Wikipedia of Cartography
- Anyone can contribute

www.openstreetmap.org

What is it?

- *Open Geo Data*
- There are many “free” basemaps, Google, Here, Bing, MapmyIndia...
- These only give limited rights of use
- OSM gives users rights to any kind of reproduction or processing
- *Open Data Commons Open Database License (ODbL)*

Methodology

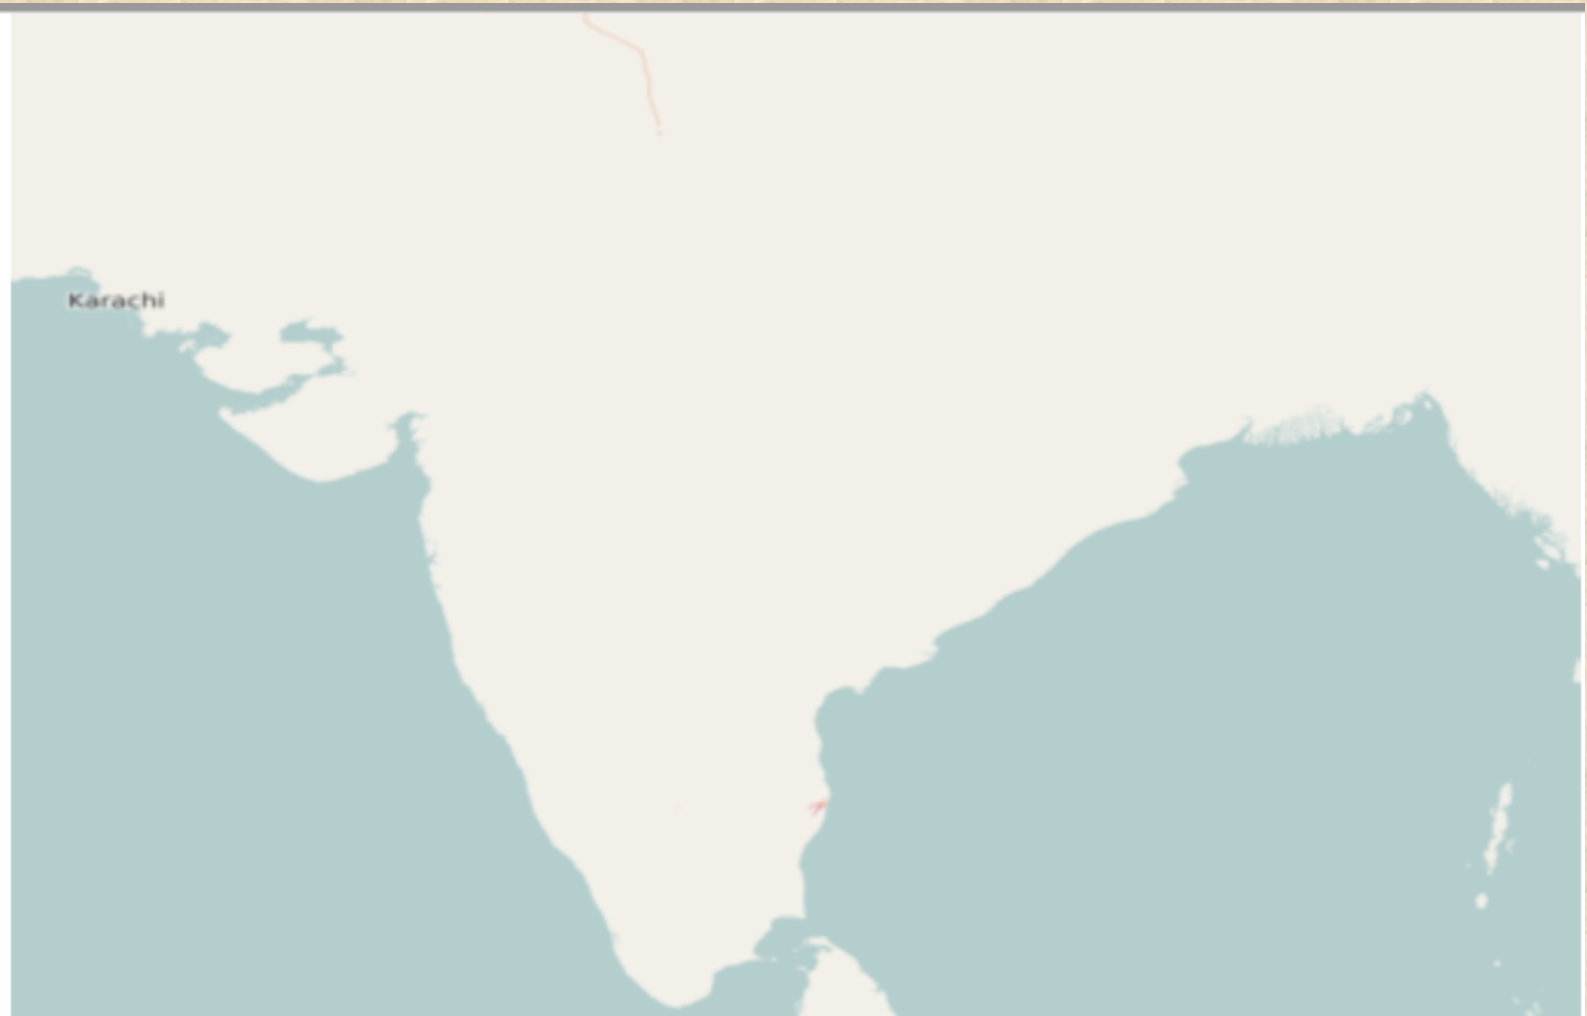

People, like you and me, gather location data across the globe from a variety of sources such as:

- Digitizing against free satellite imagery
- Recordings from GPS devices
- Public domain data

This information then gets uploaded to OpenStreetMap's central database from where it can be further modified, corrected and enriched by anyone who notices missing facts or errors about the area.

All OSM users have a stake in having accurate data. If one person puts in inaccurate data, maliciously or accidentally, the other 99.9% of people can check it, fix it, or get rid of it.

Flooded Streets

Kerala

1273 flooded streets in this region.

This is a crowdsourced effort to map inundated roads in Kerala. All the data is open source.

How-To ?

Report a flooded street by zooming into the map and clicking it.

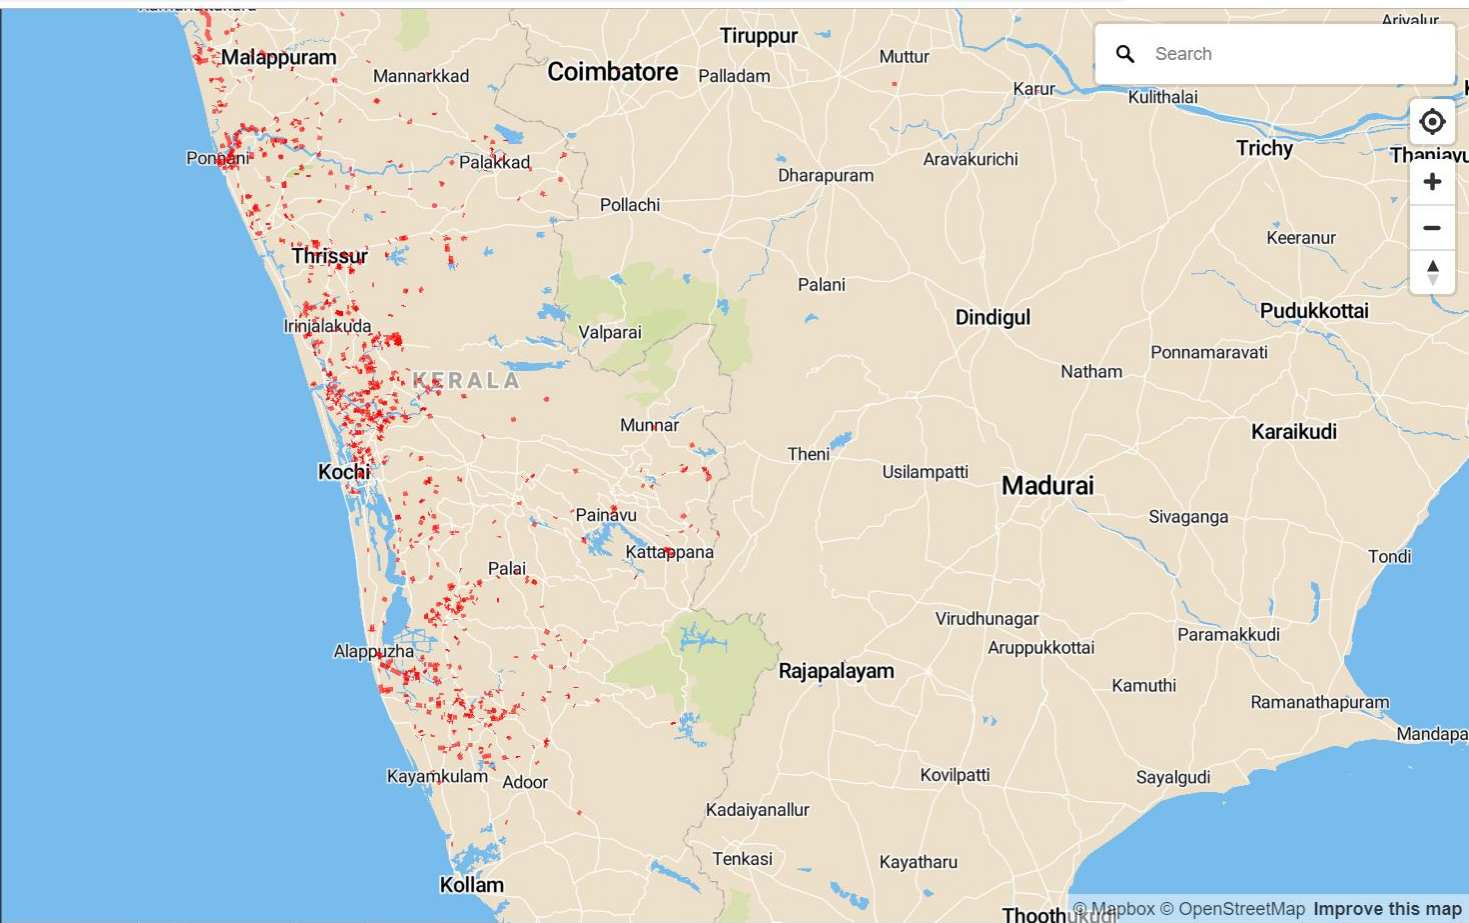

OR

Click on a marked road to unmark it once it is clear.

A screenshot of a Twitter thread. The thread consists of four tweets. The first tweet is from Naveen Francis (@naveenpf) dated Aug 20, asking if Facebook can help in ML for roads. The second tweet is from Blake Girardot (@BlakeGirardot) dated Aug 20, discussing ML workflows for road mapping. The third tweet is from Naveen Francis (@naveenpf) dated Aug 20, suggesting a data dump. The fourth tweet is a reply from Drishtie (@Drish_T) dated Aug 20, stating they are looking into it. The thread is replying to @naveenpf, @BlakeGirardot, and 5 others.

Naveen Francis @naveenpf · Aug 20
Can facebook help in ML @Drish_T ? Roads has gone so bad

BlakeGirardot @BlakeGirardot · Aug 20
@RussellDeffner ML, generating a roads layer, getting a conflation workflow, getting it approved by the imports list and then actually importing the roads is not going to be any faster than manually mapping roads unfortunately i do not think. russ and drishtie would know.

Naveen Francis @naveenpf · Aug 20
atleast a data dump would help in mapping @Drish_T

Drishtie @Drish_T
Following

Replying to @naveenpf @BlakeGirardot and 5 others

Hey we are looking into it right now. Will keep you posted.

Total Navigable Roads per week in Kerala

Total Building Footprints per week in Kerala

Benefits to students

- OSM is relevant to education in geography, mathematics, ecology, community planning, government and information technology (IT).
- Some educators use existing OpenStreetMap data in class projects, while others contribute new data to OpenStreetMap.
- In the process of using OpenStreetMap and contributing data, students also develop IT skills (needed to process data) and gain valuable knowledge in the fields of GIS (geographic information systems), planning and community development.

ണം നടത്തി. വിദ്യാഎൻജിനീയറിങ് കോളജ് പ്രിൻസിപ്പൽ ഡോ. സുധ ബാലഗോപാൽ, പഞ്ചായത്ത് വൈസ് പ്രസിഡന്റ് അബ്ദുൽ റഷീദ്, വാർഡ് മെമ്പർ എൽസി ഔസേപ്പ്, പഞ്ചായത്ത് സെക്രട്ടറി ടി.പി.കുര്യൻ, വിദ്യാ ഇന്റർ നാഷണൽ ചാരിറ്റബിൾ ട്രസ്റ്റ് ഡയറക്ടർ ജി.മോഹനചന്ദ്രൻ, ഡോ. നിസാം റഹ്മാൻ, എൻഎസ്എസ് ജില്ലാ കോ-ഓർഡിനേറ്റർ വി.എം.അരുൺ, മനോജ് കുരിങ്ങാമാത്തിൽ, പ്രോഗ്രാം ഓഫീസർ പി.അശ്വതി എന്നിവർ പ്രസംഗിച്ചു. പദ്ധതി നടത്തിപ്പിന്റെ ഭാഗമായി വിദ്യാ എൻജിനീയറിങ് കോളജിൽ വച്ച് ജിഐഎസ് മാപ്പിങ്ങിനെക്കുറിച്ചും മറ്റു സാങ്കേതിക വിദ്യകളെക്കുറിച്ചും രണ്ടു ദിവസങ്ങളിലായി ക്ലാസുകൾ നടക്കും.

NITC Mapping, 2009

Benefits for educators

- OpenStreetMap is a real world project that your students participation can make a lasting impact on.
- Students become a part of a multi-cultural, global community that they can both learn from, as well as contribute to.
- OSM is open, not only the map and all its data, but curriculum linked here is available for you to use, change and re-distribute for free.

- <http://teachosm.org>
- <https://www.openschoolmaps.ch/>

Data Format

OSM XML data format

- *.osm files
- Nodes
- Ways
- Attributes → Tags (key and value)
- “key=value”
- Relations

Data Format

Nodes

- Coordinate pair (GCM – 7 decimal places)
- Timestamp of last edit, user ID, changeset ID
- Zero or more tags
- Used to map Points of Interest (POI's)

Data Format

Ways

- Two or more nodes connected
- Timestamp of last edit, user ID, changeset ID
- Zero or more tags
- Used for linear features
- If the first and last nodes are identical an area (polygon) is formed

Data Format

Tags

- Key Value pair
- Objects can have multiple tags
- Case insensitive

Identify:

- Attributes
- Different POI's
- Differentiate between circular ways and actual areas.

Data Creation

OSM data can be created via many interfaces and tools

- OSM iD online editor
- JOSM – Offline Java Editor
- QGIS Plugin
- ArcGIS toolbox
- Mobile apps :- Vespucci, StreetComplete, OsmAnd
- ...

Data Download

Data can be downloaded for limited areas

- Overpass API (Query)
- HOT Export Tool
- QGIS Plugin
- PlanetOSM

<http://wiki.openstreetmap.org/wiki/Planet.osm>

Allows you to download snapshots of the OSM database

#opendata is the future

#opendata will win

MINISTRY OF SCIENCE & TECHNOLOGY
(DEPARTMENT OF SCIENCE & TECHNOLOGY)

National Data Sharing and Accessibility Policy (NDSAP) – 2012

1. Preamble

1.1 Asset and value potentials of data are widely recognized at all levels. Data collected or developed through public investments, when made publicly available and maintained over time, their potential value could be more fully realized. There has been an increasing demand by the community, that such data collected with the deployment of public funds should be made more readily available to all, for enabling rational debate, better decision making and use in meeting civil society needs. Principle 10 of the United Nations Declaration on Environment and Development (Rio de Janeiro, June 1992), stated

".....each individual shall have appropriate access to information concerning the environment that is held by public authorities and the opportunity to participate in the decision making process. States shall facilitate and encourage public awareness and participation by making information widely available."

Section 4(2) of the Right to Information Act, 2005 reads

"It shall be a constant endeavor of every public authority to take steps in accordance with the requirements of clause (b) of sub-section (1) to provide as much information suo motu to the public at regular intervals through various means of communication, including internet, so that the public have minimum resort to the use of this Act to obtain information"

Topics of the most popular open datasets

-  **Police and crime:** Police incidents; jail bookings; police station locations; crime statistics
-  **Transportation:** Taxi licenses; transit data; traffic counts; road infrastructure data; parking data
-  **Emergency calls:** Police, fire, and EMS responses; 911 calls; response times; incident reports
-  **Development:** Commercial developments; housing developments; property data; housing affordability
-  **Building safety:** Building permits; safety permits; certificates of occupancy
-  **Finance:** Revenue; spending; employee salaries; capital budgets; payments
-  **Elections:** Election results; polling locations; campaign finance reports
-  **Businesses and licenses:** Business licenses; liquor licenses; vendor, contract, and procurement data
-  **Inspections and service requests:** Restaurant health inspections; 311 requests; code violations
-  **Education:** Schools information; student health data; after-school programs; library locations
